

Addiko Bank

In order to strengthen our team, we are looking for an employee for the Business Solutions & DWH/BI & Application Development Department:

Officer for DWH and BI Development

Location: Belgrade

Addiko Bank d.d. is a bank offering financial products and services to legal persons, public institutions and citizens in a new and simple way. We aspire to new values: focus on essentials, deliver on efficiency and communicate simplicity. We would rather do a few things very well, than a lot of things merely okay.

Responsibilities

Supporting business decisions through development of DWH and BI system by:

- Design, development and implementation of logical and physical data models
- Design, development and maintenance of ETL processes
- Creation of documents related to architecture and technical system specifications
- Creating data models and changes pursuant to business processes
- Identification of potential data sources
- Cooperation with other units with purpose of analysis of needs of divisions, planning and creating BI & DWH solutions and reports

Requirements

- At least 1 year of relevant working experience
- 6th or 7th level of professional qualification
- Knowledge of BI & DWH technologies
- Knowledge of SQL
- Capability of multitasking on several projects
- Ability to work both individually and in a team

- Preferable knowledge of banking business processes
- Ability to make decisions and solve problems independently
- Good English skills both written and spoken

What we offer

- Challenging position with an opportunity for professional development
- International and dynamic business environment
- Professional and motivated team
